Rocky Ridge Whitetails' 26th Anniversary!

1997-2024...27 Years Consistently Striving to Improve Whitetails Genetics!!

THANK YOU...

for taking the time to check out our breeding program. A special thank you to our growing list of new and repeat customers, without you we would not be able to do what we love to do (raise quality whitetail deer). Also a special thank you to all who partnered in our breeder bucks and who are boarding some of our partnership deer. We have some does available each year, so keep in mind the earlier you contact us the more options we have to choose from.

We hope our genetics work as well for you as they are for us. It is very exciting for us to see our customers achieve great results from the genetics off our farm.

Our number one goal is honesty and integrity, how I would want to be treated in a fair business is how we treat you.

We look forward to meeting all the great people in the upcoming deer auctions and farm tours throughout the year.

Wishing you successful deer farming and God's Blessings!
